

President's Report 2017-2018

The Unitarian Universalist Congregation of South County has completed the twenty-sixth year since incorporating. In many ways we have changed—I think for the better. In many ways we have maintained the best of our identity. We are a warm, loving, affirming and laughter-filled faith community. Our committees carry out the operation of our organization with great efficiency and mutual support and encouragement for each individual.

The generosity of our members and friends, in money and person hours, is the foundation which supports the good work within our walls and is carried out into the world. Our Worship Services and events have been well attended and received. Please continue to attend whatever you can—don't assume that others are going, or that you will not be missed. We may be getting big enough to not know and hug every other participant in our faith community, but you are needed and missed when absent.

As we read the Reports from our leaders, may we all hold deep gratitude for the healthy status of our beloved faith circle.

In the Faith
Linda Whyte Burrell,
President
