

The Aesthetics Committee is a subcommittee of the Facilities Committee. It shall consist of 3 or more members at all times to insure that multiple viewpoints will be considered when making decisions as to décor both inside and on the grounds of UUCSC. Relevance, beauty, neatness and function are factors to be considered when making selections. All are respectfully asked to consult with the committee before adding to or subtracting any decorative items including notices, posters, plants, rocks, pictures, mobiles, etc. Dated items must be removed in a timely manner or the Aesthetics Committee will remove out-dated items.
