

## Covid Safety Plan

Unfortunately, the Covid Pandemic is still with us and the Delta Variant has caused us to adjust our plans accordingly. Our decisions regarding reopening are based on the recommendations of the CDC and the RIDOH and the recommendations of the UUA are considered. We continue to monitor these sources and will make changes in our plans as necessary. A Covid Safety Task Force is being created to make future recommendations.

- We **strongly** recommend that all eligible persons be vaccinated and ask those who are unvaccinated to watch the service on Facebook Live or recorded.
- Everyone over the age of two is required to wear masks, regardless of vaccination status.
- We ask that people maintain several feet of distance between household pods. The seats in the sanctuary are arranged in rows that allow a distance of 6 ft in front of congregants. At least one seat should be left empty between pods or individuals within the rows. The Oneto Room will be used for overflow seating.
- Fans will not be used where people are congregating.
- Either the air conditioners will run or the windows will be open, not both.
- Air purifiers will run 24/7 in the Sanctuary, the Oneto Room and the large children's area downstairs. Additional small units in the bathrooms will run during services.
- A contact tracing list is to be kept for services and all group gatherings.
- Only the choir (masked) will be singing.
- We will have a social time so people can stay and converse while maintaining social distance, but no food or drinks will be allowed. Outside congregating is preferred.
- We ask that you refrain from hugging or shaking hands with other congregants.
