

## Covid Protocols Relaxing 3.18.2022

The Board is happy to announce that most of our Covid protocols are being relaxed or eliminated. You might have noticed that already the sanctuary has been reconfigured.

- You may sit where you wish but we ask you to be cognizant of other people's comfort levels and need for personal space. And if you need more space please speak up kindly.
- We still encourage vaccinations.
- For the comfort of our more vulnerable congregants we are still going to require that everyone wear masks for any church services. Small church groups may choose to not wear masks while at the church as long as everyone in the group is in agreement.
- We can all sing while wearing our masks!!!
- We won't offer food or drink during "coffee hour" for the remainder of this church year but we encourage people to stay and socialize. We especially encourage outdoor socializing.

We will be soon making changes to our policy for Oneto Room and kitchen use but for the moment the kitchen is still closed and only individual servings of food or drink are allowed, all trash to be carried out.

Amended 4.06.22

For the comfort of our more vulnerable congregants, we are still going to require that everyone wear masks for any church services. **Speakers may remove their masks when they are addressing the congregation at the podium.**

Small church groups may choose to not wear masks while at the church, as long as everyone in the group is in agreement.
